Final West Gate Landfill Report

Dear Mr. Krivansky:

Per your request, we are pleased to distribute the enclosed document, which presents the final Remedial Investigation (RI) report, prepared for West Gate Landfill (WGL) at NAS South Weymouth, MA. This document provides an update of the draft and draft final versions of the report, based on comments and discussions with the Environmental Protection Agency (EPA) Region I and the Massachusetts Department of Environmental Protection (MADEP) since the Navy's completion of the draft report in October 2000.

Enclosed is the main volume; the other volumes (e.g., RI and analytical data appendices) have not been updated, so the previous respective versions are considered to be final. Any questions regarding this document should be directed to you at your Engineering Field Activity, Northeast (EFANE) office, (610) 595-0567 ext. 153.

Sincerely,

Mark D. Kauffman, P.E.
ENSR Project Manager

Enclosure

Mr. Mark Krivansky
